

SoftMax Pro 7.1.2 GxP Software Enterprise Rollout

SoftMax® Pro GxP Software scales from a single computer installation to an enterprise solution with multiple client computers connected to a database hosted on a central server. For enterprise rollouts, our professional services team is experienced installing our software in a range of IT environments and can assist in planning and scaling your implementation according to your requirements.

Representation of a SoftMax Pro GxP Software enterprise rollout is shown below.

Sandbox / DEV Server

Phase 1	Phase 2	Phase 3		Phase 4			_
		IT Workflow					
Pre-call installation requirements Hardware	Global IT: System Prep Config app and/or DB serv Config firewall/GPO/accour Identify client test systems	'''	App server Stability/servers/L DB server Latency and data				Global IT Release validated system (client image)
